

AMPAREX LTS-2021.4 release notes

Overview

The following release notes contain information about significant changes and enhancements introduced to the AMPAREX practice management software. We sincerely hope that the new features and bug fixes will considerably improve your AMPAREX experience. As usual we're looking forward to your feedback.

They are divided into different areas:

- [General changes and fixes in the LTS release \(as of October 2021\)](#)
- [API status - 2021](#)
- [Database status - 2021](#)
