at System.Threading.ExecutionContext.Run(ExecutionContext executionContext, ContextCallback callback, Object state)
at System.Threading.ThreadHelper.ThreadStart()
```

Schritt für Schritt

HIMSA gibt folgende Hilfe aus:

```
It seems that the clock on your machine has changed.
To correct the error go to C:\ProgramData\HIMSA\Noah\Backup\NoahClient

Create a folder named old and copy all the files from C:
\ProgramData\HIMSA\Noah\Backup\NoahClient to that folder.
Leave the C:\ProgramData\HIMSA\Noah\Backup\NoahClient empty and restart the noahserver and
noahclient services.
```
